## HOLYOKE AT WORK *Putting Creativity to Work*

We are bringing together city, union, community and elected leaders and inviting them to share stories and make art that strengthens community resiliency and sparks innovative ideas for a better Holyoke. There will be 3 workshops - Life Stories/Community Stories, Leadership/Fellowship, Di/Visions - each paired with a different art form - poetry, chorale singing, photography. When we make art we are more likely to remember our connections, foster a collaborative culture, and take the sorts of risks necessary to achieve sustainable outcomes. Modeled after the City of Portland Maine's successful Art At Work, local artists will co-facilitate each workshop with ART AT WORK Holyoke.

Wednesdays, March 20th, April 10th, May 8th  
Holyoke Community Celebration on Friday May 31st
